The BOA® System with open heel

It allows people with disabilities to use footwear in everyday life in the simplest and safest way. The system enables easy operation with one hand and ensures uniform tension throughout the foot, allowing the footwear to fit perfectly.

The BOA is also designed specifically for kids who wear orthotics, so they can easily put on and take off their shoes.

The company BOA managed to obtain a perfect fit with a simple turn of a wheel, which is far from the use of excessive force, and old-fashioned fasteners. This fastener form has both a significantly higher level of comfort, and is durable, lightweight, fast and convenient to use as well. Manufacturer of the BOA fasteners gives a lifetime warranty on its products.
